Use the 7 blocks in between the inventory lists to log Barrels, Chests, Quivers, ect that you might that yu might carry on your wagon.
For Chests you might number your chest inventory sheet and log the chest number in one of the blocks.
For Barrels you might log the contents of the barrel. Ex: Water, Wine, Apples. List only one item per barrel if the item is liquid.
For Quivers or other ammo types log the amount of ammo in the block.
Note all the weight so you do not exceed the 2 ton (4000 lbs) weight limit of you wagon.

Sheet created by Keith Callaway
